

Station::getAfstappen

```
graph LR; A[Station::getAfstappen] --> B[Station::properlyInitialised]
```

A diagram showing a dependency between two code elements. On the left, a gray rectangular box contains the text 'Station::getAfstappen'. A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'Station::properlyInitialised'. Both boxes have a thin black border.

Station::properlyInitialised
