

Tram::getSnelheid

```
graph LR; A[Tram::getSnelheid] --> B[Tram::properlyInitialised]
```

A diagram showing a dependency between two code elements. On the left, a gray rectangular box contains the text 'Tram::getSnelheid'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. This white box contains the text 'Tram::properlyInitialised'. Both boxes have a black border.

Tram::properlyInitialised
