

Parser::Parser

```
graph LR; A[Parser::Parser] --> B[Parser::properlyInitialised]
```

A diagram illustrating a state transition. On the left, a gray rectangular box contains the text "Parser::Parser". A dark blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Parser::properlyInitialised". Both boxes have a black border.

Parser::properlyInitialised
