

Station::bevatSpoor

```
graph LR; A[Station::bevatSpoor] --> B[Station::properlyInitialised]
```

A diagram illustrating a state transition. On the left, a gray rectangular box contains the text "Station::bevatSpoor". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Station::properlyInitialised". Both boxes have a black border.

Station::properlyInitialised
