

Tram::getSpoor

```
graph LR; A[Tram::getSpoor] --> B[Tram::properlyInitialised]
```

A diagram showing a dependency. On the left, a gray rectangular box contains the text 'Tram::getSpoor'. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text 'Tram::properlyInitialised'. Both boxes have a black border.

Tram::properlyInitialised
